Component:			
Description			
<p>We have received request from the UCDC and National TB Institute to assst National TB Institute with configuring Internet connections for the users to start entering data to the e-TB Manager.</p> <p>We need to go to the TB Institute tomorrow to assist them with establishing Internet connection fo rthe e-TB Manager (about 20-30 users in total). It would be good if we coordinate this task with UCDC IT administrator.</p>
