Quantification tool - Bug #1268

Changes on validation process and warning messages' labels of treatment regimens

08/08/2014 07:54 PM - Luis Gustavo do Valle Bastos

Status:	Closed		**Start date:**	08/08/2014
Priority:	High		**Due date:**	08/15/2014
Assignee:	Luis Gustavo do Valle Bastos		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	Version 3.0		**Spent time:**	0.00 hour

Description

- Replace label "Phase duration is not defined" to "Phase duration can not be zero".

- Replace label "Medicine is not defined" to "Medicine must be added".

- Check if units per days and days per week for all medicines within the phase are different from zero before allow users to add new phase. Currently this checking has been done only for units per day. Display a warning message if zero remains for at least units per days or days per week.

- Replace the label "*Name of the medicine* Dosage is not defined" to "*Name of the medicine* Units per day and Days per week cannot be zero" for the current message related to the validation process mentioned above.

- Display confirmation dialog boxes before deleting phases and medicines.
