<b>Description</b>			
- Include a button called "Import database". When hit this button a drop-down is displayed with options:			
From e-TB Manager: calls the web service that has been developed (for users with access also to e-TBM)			
From other systems: browses an excel spreadsheet in the user's computer. Before importation, QuanTB checks if the format of the spreadsheet is compatible with its data set.			
- Display a sample of the spreadsheet with the required data format for user viewing and downloading.
