Description

Copying from excel to paste into QTB and only the last cells on the right are blank, system doesn't check for whole number (doesn't display error message), it simply doesn't paste those empty cells. Please correct.

History

It is impossible, because Excel clipboard is too smart and do not copy anything from empty cells. Example:
Suppose we have 3 number cells following 3 empty cells
We have been copied all 6 cells, but clipboard accepted only 3 non-empty
