This issue will affect the generic version. It's important to check the relevance of this request for the canbodian version.

It'd be good if gustavo could evaluate that.

#### #2 - 12/17/2012 09:10 PM - Luis Gustavo do Valle Bastos

If it was a request coming from the field, this label should be changed only for the Cambodia workspace.

No change on the generic version and on the other countries, since the term "Category" is aligned with WHO recommendations.
