Description

In order to finish the command history report, some changes must be done:

Command History

Start date: Finish date: Action: User:

Command Event: Region: Search key:

User	Date	Command Event	Action	entityName
------	------	---------------	--------	------------

1. Remove filter action (now it is part of the command event name);
2. Refactor layout - controls too tight - Maybe it's better to put it in 3 rows and make controls wider;
3. If there is nothing to display, a message at the bottom should be displayed instead of an empty table;
