Description

When any user with role STAFF perform Application submit, button "Back" application data may be lost. Affected all STAFF users. It is impossible do not use button "Back". Because of this issue information in database became "dirty". Only workaround is to retype information. Good solution will be button "Save" and warning message «Unsaved changes will be lost. Do you want to continue?"

History

- Priority changed from Normal to Immediate

#3 - 07/29/2016 05:26 AM - Oleksii Kurasov

Also, this error raises, when user attach file while screening. Cause is same!

#4 - 08/01/2016 02:38 PM - Oleksii Kurasov

- Status changed from Resolved to Feedback

Is it possible to keep old values, when user press No?
