

Quantification tool - Bug #558

Correct the number of months displayed in the Cases on treatment tab in the new forecasting

04/01/2013 04:05 PM - Luis Gustavo do Valle Bastos

Status:	Closed	Start date:	04/01/2013
Priority:	High	Due date:	04/10/2013
Assignee:	Luis Gustavo do Valle Bastos	% Done:	80%
Category:		Estimated time:	0.00 hour
Target version:	Version 1.0	Spent time:	0.00 hour
Description			
Should be displayed the previous number of months related to the longer treatment included in the forecasting, starting from the month of the reference date. For example, reference date 28-March-2013 with treatment duration of 6 months, the system should display from March 2013 through September 2012.

Given that in the desktop version all cases on treatment will default start treatment on the first day of the month they are assigned, please discard what was asked above and move back to the original logic, as follow. (sorry!!)

Should be displayed the exact previous number of months related to the longer treatment included in the forecasting, starting from the month of the reference date. For example, reference date 28-March-2013 with treatment duration of 6 months, the system should display from March 2013 through October 2012 (and not September 2012, as asked before).

Thanks!
