Entered fields have been displayed, but the current issue is when editing data:

- System doesn't effective changes for the fields: Started on ART ?; Date:; ART Regimen:; Started on CPT ?; Date:. It means that, changing these fields and clicking on button save, the old (instead of the new) information is displayed at case details page.

- System does effective the changes for the fields: Latest CD4 count (if done):; Date of release:; Viral load:; Date of release:. But, when refreshing the case detail page data go back the old information.
