

Quantification tool - Bug #918

Error message and warning message for Single Drug calculations

09/19/2013 06:45 PM - Luis Gustavo do Valle Bastos

Status:	Closed	Start date:	09/19/2013
Priority:	Urgent	Due date:	09/23/2013
Assignee:	Luis Gustavo do Valle Bastos	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Version 2.0	Spent time:	0.00 hour
Description			
<p>System is considering that percentage must be 100% at least for one medicine to allow users execute the forecasting, otherwise the error message "At least one enrolled case or one expected case must be reported to execute the forecasting" is displayed. It doesn't apply for single drugs. For single drugs, the percentage for each medicine cannot be greater than 100%, but it can be less, and the total percentage (adding all medicines) can be greater or lower than 100%. Only for multidrug the total percentage must be exact 100%.</p> <p>After entering 100% for one medicine, system display the warning message "At least one enrolled case and/or one expected case should be reported for:" referring to the other medicines that have percentages less than 100%. It's not applicable for single drugs. In this case, the warning message should be displayed for medicines with 0% (zero).</p> <p>See qtb file attached.</p>

This is a very interesting example. In example provided You, cast for any medicines less, then 50%. But monthly quantities are only 1. Validation works as expected:

1. Apply less than 50% for each quantity.
2. Any quantity is 1
3. Less than 50% applied to 1 is 0
4. So, total cases quantity is 0.

To check this, please input 2 to the any monthly quantity. Picture will be clear.

But some bugs fixed.

For expected cases implemented validation for >100%

For both expected and enrolled disabled negative numbers

#2 - 09/20/2013 06:04 PM - Luis Gustavo do Valle Bastos

Correct the label of warning message for checking percentage of single drugs to "Percentage cannot be negative or greater than 100" (correct from then to than)

#3 - 09/23/2013 05:37 AM - Oleksii Kurasov

- Due date changed from 09/20/2013 to 09/23/2013
