<b>Target version:</b>	Version 2.0	<b>Spent time:</b>	0.00 hour
<b>Description</b>			
When you open New forecast, and in Cases must select By Number or By Percent, the window by default shows "By Number" for cases on treatment, and "By Percent" for expected cases. The default should be the same choice for current (enrolled) and new (expected) cases, that either "By Number" and "By Number".			
See attached.
