History

#1 - 11/26/2013 11:48 AM - Ricardo Memoria

Fixed.

The error could be replicated like that:

1. Start a new notification;
2. Fill all required fields;
3. Double-click on the "Save" button (double-clicking will send two requests to the server);
4. The first request is executed, but the second raises an error;

Solution:

Implemented JS in the save button, so when clicking on it, it's disabled (using the save approach as in use in the generic version)

#2 - 11/26/2013 11:48 AM - Ricardo Memoria

- Status changed from New to Resolved

#3 - 12/11/2013 08:00 AM - Ricardo Memoria

- Assignee changed from Ricardo Memoria to Luis Gustavo do Valle Bastos

#4 - 12/27/2013 05:23 PM - Luis Gustavo do Valle Bastos

- Status changed from Resolved to Closed

Tested and adequate.
